

RTT-1650 Textile Trimmer

Pre & Post Production Trimming

The RTT-1650 Thermal Textile Trimmer is a perfect fit for high volume fabric and textile production. Time-Saving features and functions help to resolve the bottleneck of trimming textile to size.

Key Benefits

- **Efficient** Trims 100% cotton, 100% polyester and cotton/polyester blends in less than 2 seconds with a 6-8 second cleansing process
- **Easy To Use** User friendly controls and included foot pedal
- **Smoke Removal** Use the included window exhaust kit or smoke cleanser to remove by-product of trimming process
- **Accurate** Laser sight and thermal allows for a precise trim every time
- **Convenient** Hold rolls of textiles with 10" diameter and up to 150 lbs.

The time saving thermal textile trimmers are specifically designed for users to easily and professionally trim fabrics and textiles, ranging from 100% cotton to 100% polyester to cotton and polyester blends. A laser sight and thermal blade allows for precise textile trimming every time. The included smoke cleanser automatically eliminates the by-product of heated fabrics. The easy to load roll holder with universal core adapters will hold rolls of fabric or textiles with a diameter of up to 10 inches and a weight of 150 lbs. The highly efficient RTT-1650 thermal textile trimmer by Royal Sovereign will eliminate the need for hot blade trimming by hand.
